

Y3 Money

KS2 Maths · Follows the national curriculum

Name _____ Class _____ Date _____

1. Worked example

Add £2 and 45p, then £1 and 30p.

Step 1 · Add the pounds

$$£2 + £1 = £3$$

Step 2 · Add the pence

$$45p + 30p = 75p$$

Answer: £3 and 75p, written £3.75

Check: The pounds and pence stay in their own groups, like hundreds and ones.

2. Now try one with the steps

An apple costs 65p. You pay with £1. What change do you get?

Step 1 · £1 = 100p. Write both in pence.

Step 2 · Count up from 65p to 70p, then to 100p

Answer:

3. Practice

Have a go at each one. There is space underneath to work it out.

1. How many pence are in £1?

2. Write £2.05 in pence.

3. Write 350p in pounds and pence.

4. Add 40p and 35p.

5. Add £3 and 20p to £1 and 50p.

6. A pencil costs 35p. You pay with £1. How much change do you get?

7. A comic costs 80p. You pay with a £2 coin. How much change?

8. Which is more: £1.09 or 190p?

9. A sandwich costs £2.40. You pay with £5. What change do you get?

10. You have £10. You buy a book for £4.75. How much money do you have left?

11. Three items cost 85p, £1.20 and £2.50. What is the total cost?

12. Mia buys two items for £3.65 each. She pays with £10. How much change does she get?

13. Ali has 4 coins that make 75p. One is a 50p. What could the other three be?

14. A cake costs £1.35. Lucy pays with £2 and gets 75p change. Is that right? If not, how much should she get?

4. Before you hand it in

Writing £3.5 instead of £3.50

Always write two digits after the point for a money amount: £3.50, £3.05.

Writing £2.50p

Use £ OR p, never both: £2.50 or 250p.

Thinking £1.09 is more than 190p

Change both to pence: £1.09 = 109p, which is less than 190p.

Getting change wrong by subtracting without crossing the pound

Count up: £3.60 → £4 is 40p, £4 → £5 is £1. Change = £1.40.
